FOR MORE INFORMATION

**CFLs contain small amounts of mercury. Please dispose of your CFLs properly.** ♻️

- Check with your local waste disposal company for direction or visit [www.northwesternenergy.com](http://www.northwesternenergy.com)
- To reduce the risk of bulb breakage and contamination, wrap the bulb in a sealed plastic bag
- Never incinerate CFLs

**NorthWestern Energy has developed several programs to help customers save on energy bills including:**

- E+ Residential New Construction Program
- E+ Energy Audit for the Home
- E+ Natural Gas Savings Rebate Program
- E+ Residential Electric Savings Program

PROGRAM

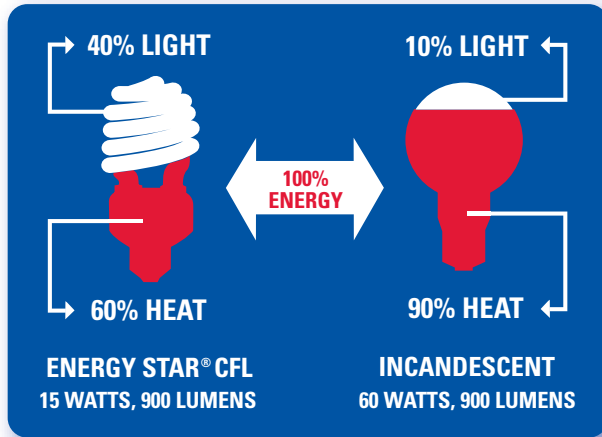

Make your next lights  
**ENERGY STAR® CFLs**  
and save on your  
energy bill!!

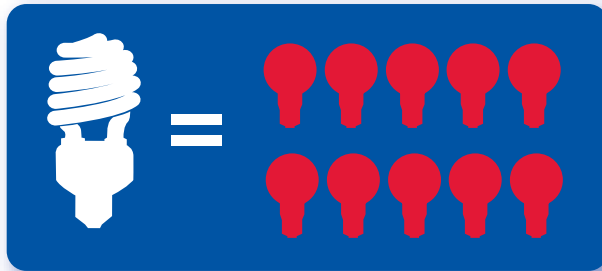

NorthWestern  
Energy

## WHY SHOULD YOU CONSIDER CFLs?

**CFLs use 65-75% less energy than standard light bulbs**

**CFLs last up to 10 times longer than standard light bulbs**

### Additional reasons to consider CFLs.

- At current NorthWestern Energy electricity rates, a CFL will save up to \$35 over its lifetime if it replaces a 60-watt incandescent light bulb that is used 3 hours or more per day
- CFLs are available in different shapes, including spiral, flood and globe, which fit in almost any fixture – table lamps, porch lights, etc.
- ENERGY STAR® CFLs come with a 2 year warranty
- New CFLs do not hum or flicker like fluorescent technology of the past
- CFLs are available at most home improvement, discount and hardware stores throughout Montana

### Things to consider when purchasing CFLs.

- Buy CFLs that provide at least as much light output (lumens) as the bulb you are replacing

#### GUIDELINES FOR CHOOSING THE APPROPRIATE CFL FOR THE LIGHT OUTPUT (LUMENS) DESIRED

Incandescent Bulb Rated at:	Necessary Light Output (Lumens):	Typical CFL Replacement (Wattage):
40 WATTS	450 or more	10-13 WATTS
60 WATTS	800 or more	14-19 WATTS
75 WATTS	1100 or more	20-25 WATTS
100 WATTS	1600 or more	29+ WATTS

- Consider CFLs for hard to reach lights
- CFLs are recommended for places where lights are on for 3 or more hours per day
- Do not use on dimmer switches
- Choose products rated for the place where you want to install them – table lamp, enclosed fixture, outdoor use, recessed cans, bathroom light bar
- To qualify for the rebate, you must purchase ENERGY STAR CFLs and fixtures

### What is a Hard-wired CFL Fixture?

- Hard-wired CFL Fixtures are NOT portable, they permanently attach to your home
- Hard-wired CFL Fixtures are available for ceiling rounds, pendants, wall sconces, under-cabinet lighting, chandeliers, bathroom light bars, recessed cans and outdoor lights
- Hard-wired CFL Fixtures come with pin-based CFLs that offer bright light for at least 10,000 hours
- Hard-wired CFL Fixtures are designed with energy efficiency in mind, so any issues finding the right-sized bulb are eliminated – the pin-based bulb is included
- A qualified electrician should install Hard-wired CFL Fixtures
- PLEASE NOTE: Linear fluorescent tube light fixtures are not eligible for rebates under this program

### CFL Lighting and Fixture Rebate Program.

- Buy five ENERGY STAR® compact fluorescent lights (CFLs) and receive a rebate of up to \$2.00 per bulb\*
- Buy ENERGY STAR® hard-wired CFL fixtures and receive a rebate of \$10 per fixture\*

\*Limited time offer. Rebate may not exceed purchase price. Participants will receive the rebate amount or the purchase price, whichever is less. Not valid with any other NorthWestern Energy incentive offer.

### Participation Guidelines.

- For NorthWestern Energy Montana residential electric customers only
- For ENERGY STAR qualified CFLs and Fixtures only
- Buy a minimum of 5 CFL bulbs or 1 Hard-wired CFL light Fixture
- Rebates limited to 15 CFL bulbs or 5 Hard-wired CFL fixtures per home per year through the E+ Mail-in Rebate Program
- **Offer good for purchases between January 1, 2007 and June 30, 2008.** Paperwork must be submitted within 90 days of purchase.

### How Do I Apply?

- Complete the application form
- Attach all original receipts and UPC barcodes from CFLs purchased
  - *May not be combined with other offers from NorthWestern Energy*

#### MAIL COMPLETED APPLICATION TO:

**E+ Home Lighting Rebate Program**  
**NorthWestern Energy**  
**P.O. Box 54, Helena, MT 59624**

### Rebates

*\*Your rebate check will be issued within 4-6 weeks.  
An incomplete application will delay processing.  
Please call (800) 823-5995 with questions.*
