

# Lighting and Controls – Energy Efficient Applications Course

*For electricians, distributors, manufacturers, commercial lighting reps, business customers*

The Northwest is gearing up for a significant increase in the volume of energy efficiency activities over the next few years. Utilities, energy efficiency organizations and industry contractors & distributors are working together to dramatically increase the number of completed energy efficient lighting projects and save more energy.

## Join us to learn more about:

- *Light sources, color rendition, design of energy efficient applications*
- *Tips to conduct lighting audits quickly and accurately*
- *New and emerging commercial lighting technologies*
- *Incorporating efficiency training to real life applications*
- *Techniques to market and sell commercial lighting projects*

**Montana Electrical License  
Continuing Education Unit (CEU) credits available**

**Register now for a FREE session, hearty breakfast served!**

*(The normal \$79 tuition cost for this course is being waived as part of NorthWestern Energy's E+ Commercial Lighting Rebate Program)*

**We look forward to working with you to help your customers improve their lighting and save energy (and money).**
